

CLIMCOVER® Roll Alu1 Black

Isoover glass wool blanket covered by a face with a steam barrier with double aluminum coating (aluminum + black aluminum) that acts as support and steam barrier. Climcover® Roll Alu1 Black is reinforced with a tridirectional glass mesh and has a overlapping tongue that guarantees the continuity of the steam barrier.

Due to its high thermal performance, Climcover Roll Alu1 Black, it is the appropriate solution for the isolation by the outside of air distribution duct networks, both of rectangular and circular section, in facilities seen.

AESTHETICS.

Its black finish is perfect for exposed installations.

FAST INSTALLATION.

Solution designed to adapt to all types of metal conduits.

THERMAL INSULATION.

High thermal insulation $\lambda(10^{\circ}\text{C})$ 0.032 W/(m.K)

FIRE REACTION.

Euroclass A1.

RECYCLED GLASS.

Sustainable product. Made with 80% recycled glass.

CLIMCOVER® Roll Alu1 Black

CHARACTERISTIC	SYMBOL	UNIT	QUANTITIES AND DECLARED VALUES				
Reaction to fire	-		Euroclass A1				
Characteristics			CLIMCOVER® Roll Alu 1 Black incorporates a tiapima for optimal sealing of the joints between insulation sections. Thanks to the reinforced coating with glass mesh, the installation of an additional metal mesh is not necessary. Avoid condensation in metal ducts.
