

## CLIMAVER® Tools

Portable, semi-automatic machine enables cuts to be made both in half lap joints and in cuts with overlaps on **CLIMAVER®** panels with a thickness of 25 mm and 40 mm.

The machine has a lightweight aluminium frame which is removable and can be transported using locking wheels. It has pivoting and extendable sides that enable any size of panel to be cut to a maximum length of 3 m.

| CHARACTERISTIC        | QUANTITIES AND DECLARED VALUES   |
|-----------------------|--|
| Advantages            | CE mark.<br>Easy to use, safe and ergonomic panel cutting.<br>Greater cut precision, speed and performance.<br>Reduction of errors and, therefore, better use of materials.<br>Portable and lightweight for easy transportation and use both on-site and in the workshop.<br>Has screen-type protection, blocking and safety systems when cutting. |
| Dimensions and weight | The frame dimensions are 1.600 mm x 980 mm in the folded position, and 1.600 mm x 2.700 mm with the extensions outstretched.<br>The weight of the machine is 65 kg, which enables it to be transported easily. -   |
